TITLE: Chewing gum for preventing tiredness - comprising gum base and gel compsn. contg. peptide, polysaccharide, and/or fibre and caffeine

Basic Abstract Text (2):
The content of mixed and dispersed caffeine is 5-50% wt. in the gel compsn. The content of caffeine is pref 0.1-3% wt. in chewing gum. The peptide is selected from gelatin, gluten, soybean protein, egg white peptide, casein, and albumin. The polysaccharide is selected from agar, alginic acid, pectin, starch, xanthan gum, locust bean gum, glucomannan, tamarind seed gum, curdlan-type polysaccharides, and carrageenin. The fibrous substance is selected from cellulose, hemicellulose, carboxymethylcellulose, methylcellulose, carboxymethyl starch, and starch phosphate. The caffeine is extracted from green tea leaves, black tea leaves, mate leaves, coffee beans, and guarana beans. Flavour given to the chewing gum is a constituent mainly comprising menthol. The gel compsn. is prepd. at temps. of 150deg.C or lower.
